Re: Monroe House

Dear Mr. Kerrill:

Just a note to express how pleased I was with the finished exterior restoration at the Monroe House. You and your staff were extremely professional, timely and reliable. The KEI-40 hydro jet blaster is a fabulous machine, and allowed us to thoroughly clean the exterior surfaces while keeping the sidewalk open and windows open in the building. I have been involved with sandblasting before and the mess it creates, but I will never again have to endure that mess.

I strongly recommend Kerrill Enterprises and the hydro jet blaster for any type of exterior restoration. Feel free to have your potential clients contact me at the above referenced number.

Very truly yours,

Andrew Miller  
Vice President  
Abaris Realty, Inc.
